

HD2

HD2

High-speed machine for closing sausages in natural or artificial casings and nettings with two aluminium clips.

Just by pressing the start levers and without releasing the products from the hands, it automatically gathers the casing together, closes two clips and cuts between them.

Features:

- Robust construction with stainless components specially treated to withstand the adverse conditions such machines usually work in.
- Fully pneumatic operation.
- Minimum maintenance.

Following our standards, its devices and elements are protected by our own patents. In order to improve the machine, we reserve the right of modifications without prior notice.

Technical data:

Net weight: 70.4 lbs.
Operating pressure: 6 bar
Air consumption: 5,7 liters/cycle

Model	Range of clips
H-2700 C25	H-2710, H-2712, H-2714, H-2716

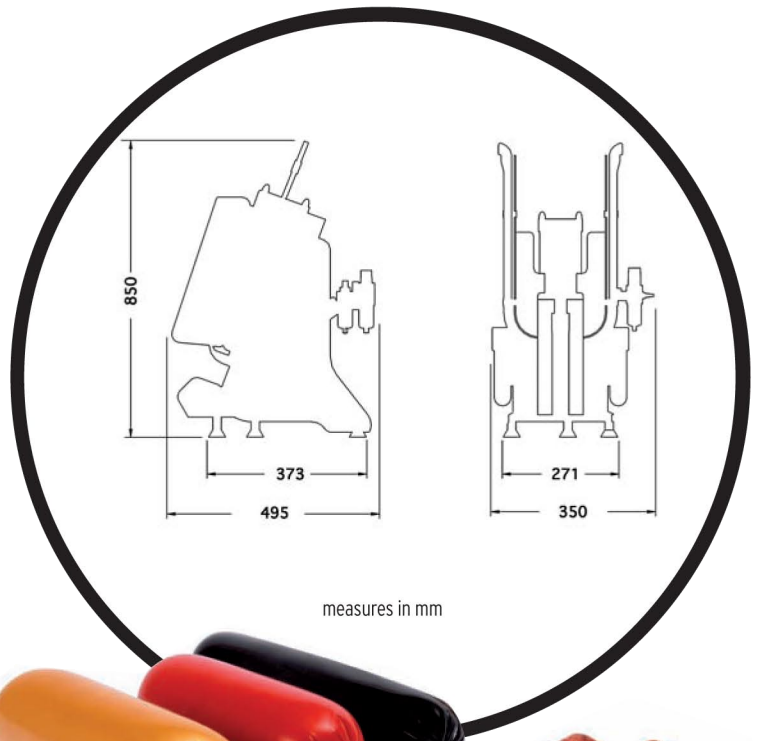

Accessories:

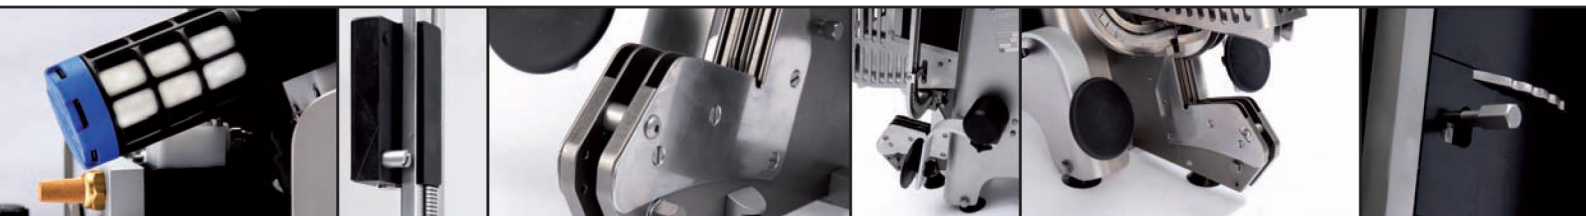

Loops

Clip on spool

measures in mm
